

Assignment:

Add a feature to your collection project that allows it to write your collection to a text file. This can either be a simple listing (identical to displaying it on the screen), or a CSV file (which could then be loaded using H 14.2a).

Related Learning Outcomes:

H 14.3: Write code to write a text file
J 14.1: Write code to throw an exception
J 14.2: Write a try/catch block
J 14.3: Write code to use files

Due Date/Time: As posted on Canvas
