

Assignment:

Add features to your collection project that allow the collection to be saved and opened as a serialized file. The should be new methods added to the collection class. (They don't need to be added to an UI assignment you're making unless you want them to count toward and E for either of them.)

Related Learning Outcomes:

H 14.4: Write code to read and write serialized output to and from a file

J 14.1: Write code to throw an exception

J 14.2: Write a try/catch block

J 14.3: Write code to use files

Due Date/Time: As posted on Canvas
