Wednesday, January 8

Welcome!

(This was for the first class meeting of this term)

Collections

What do you collect?

In a spreadsheet, list some of the things in your collection. Include several columns with descriptors like

- color
- shape
- size
- age
- value
- whatever

I'll be using my guitar picks collection as an example. (Yes, there is a point to this!)

Save this file in CSV form and attach it here. (You can save it in Excel format as well if you have a way to keep it.)
